J. N. Pfeiffer Esq. 105. 2306_Stock_1926. 11..12_p1

"Friday the 12 day of Nov. 1926

I had the following conversation with Undertaker Dahl formerly of Somerville NJ but now located at Spring Valley N.Y. with Russel Fiske, son of Fiske & Dahl.

Mr Dahl had said & several of persons I know that he knew the tongue was in Mrs Mills mouth when he shaved body off for Undertaker Samuel Dutcher of Suffern, this party having died in this was on Saturday the 16 day of Sept. 1922 and that on Sunday A.M. Undertaker Hubland of New Brunswick took the body of Mrs Mills to his place, after he had removed Mr. Hall body on Saturday A.M.

When I questioned him he told me he had not noticed whether her tongue was in or out, but thought it was in, I asked him if her mouth was open which would enable him to remove it." he said really he was not sure whether her mouth was open or shut."

It seems to me he made this talk I think for notoriety owing to him moving from Somerville to here about 1 year after the 1st Grand Jury held, as I remember reading an article about him in the Park Ridge Local

He gave me the name of one Joseph
Dr Mond of Bound Brook living at 96
East Main St, he said "Joe handle the
body of Mrs. Mills and put the body in
the wagon; and he probably would notice
more than any one else, would regarding the tongue
at that time. The party who told me regarding
making statement was Mr. A. Geiger, Mr. Evans
and others, but I wished to make sure.
Some people make many loose
statements at times thinking nothing will come
from them.
I will call and see the party
Joseph Dr. Mond Saturday morning.

Respt Submitted.

Stock

P.S. "He also told his Partner
that he knew her tongue
was not out at the time.
Mr Russel Fisher his partner
is going to have a talk with
him, I to see him this evening."
I really have not much
confidence in Wall's story
